

BANGOR.

MONDAY, MAY 5, 1838.

Charles S. Davis, Esq. of Portland, has been appointed to go to Washington with communications from Gov. Kent to the President upon the subject of the North Eastern boundary, and to act as the Agent of the State in relation to the proceedings of the last Legislature upon that subject.

The determined spirit manifested by the Governor in regard to this question entitles him to the enthusiastic support of every patriotic citizen of Maine, without distinction of party. His able vindication of our claims in his message and his conduct subsequently, give us the cheering assurance that every thing will be done to urge this matter of importance to the interests of Maine, upon the immediate attention of the General Government.

The part which Mr. Davis has taken in former negotiations upon the same subject, his thorough acquaintance with the points in controversy, and his high reputation generally, give us ample assurance that our State will be ably and efficiently represented at Washington. Much depends upon the result of this movement. If the United States shall still refuse to run our boundary line, that duty will devolve upon our Executive, and we have no doubt that it will be fearlessly performed, in a manner that shall leave no ground for controversy, although it may not protect us from a repetition of foreign invasion and outrage.

TRUBLE IN THE TORY CAMP. Benj. Shaw, Esq. who was supposed by himself and the public to have been removed from the office of Deputy Collector at Bangor, has received a letter from the Secretary of the Treasury, informing him that he is not removed. Mr. Woodbury says that when the Collector is removed, his deputies remain in office until others are nominated by the new Collector and approved by the Secretary. Mr. Shaw, we understand, being satisfied that this was a mistake on the part of the Collector, and not a removal, put up his sign again to-day.

The Secretary does not expressly state in his letter to Mr. Shaw, whether the recent election in Belfast in particular, or the alarming fall of Tines loco in general, has compelled him to refuse his approbation to the new nomination.

We shall probably be able to give full returns from Oxford Congressional District, on Monday. The additional returns received to-day render it certain that, though Paris may be elected, the Tory majority is very small, compared with any other election in that District for a long series of years. The Whigs there, as in New Hampshire, are every day gaining in numbers, strength and confidence, and one more effort will ensure their complete success.

THREE CHEERS FOR THE OLD DOMINION.

By a Postscript in the New York Express we have received the following cheering intelligence in confirmation of our announcement of yesterday that Virginia was coming.

VIRGINIA ELECTION.

A gentleman who came passenger in the boat from Philadelphia, this morning, informs us that the WHIG CAUSE IS TRIUMPHANT IN VIRGINIA. Last year the Van Buren majority in the Legislature was 30. This year, as far as heard from the changes are 23 in favor of the Whigs; giving a decided Whig majority of 14, and securing a Whig Senator at the next meeting of the Legislature. Our informant states that great rejoicings were being held throughout the State.

OLIVE AFFAIRS.

In Common Council, May 3. Order passed in concurrence, directing the Superintending School Committee to expend a sum not to exceed \$100 for repairs on the brick School House.

STEAM BOAT MOSELLE.

The Cincinnati Post states that the Moselle was crowded with passengers from New York to New Orleans, and that the exception of those in the ladies cabin, were killed or wounded. 17 of the former have been found. Numbers of the latter have been conveyed to the different houses along the shore; and some of them are now in the throes of death. Capt. Perin was thrown up into the front street, upwards of eighty yards from the boat, and instantly expired. The Pilot was thrown about one hundred perpendicular feet into the air, came down to the water, and sank beneath its surface, never to rise with life.

A public meeting in pursuance of a proclamation by the Mayor, was held at the Council Chamber, yesterday afternoon at 8 o'clock. A communication was read from one of the Clerks of the boat, stating that there was in all on board the boat, about 250, 86 of them being cabin passengers.

Various resolutions were offered and adopted, and a committee appointed to take charge of the sufferers.

Among the names missing, we notice with sincere regret, that of Mr. Patton, lawyer, Portland Me. We have reason to believe that the person thus described is John E. Patton Esq. formerly of Bangor. We hope that in further accounts, his name will appear among the saved.

From the Mobile Com. Adv. April 13. IMPORTANT DECISION.

A question of great importance came up yesterday before the Circuit Court of the United States now sitting in this city, and was decided by the Court, Judge McKinley of the Supreme Court of the United States presiding. The Carrollton Bank, a banking company chartered in Louisiana, purchased in Mobile, through an agent, a bill of exchange, which being unpaid, the bank brought an action against one of the parties to the bill. The Court decided that bank corporation of another State could not make a contract in this State, for want of capacity to contract, and therefore that the bank could not recover on the bill. The case will go up, as we understand, to the Supreme Court of the United States, and there the question will be settled.

The above decision has produced great excitement here, and is the subject of general conversation and alarm. Its ruinous consequences, if sustained, can scarcely be imagined.

THE CHEROKEES. The appointment of Gen. Scott to the painful office of removing the Cherokees, since these unfortunate people are to be compelled to abandon the abodes of their fathers, must be grateful to the philanthropist, as upon no one could the appointment have fallen by whom the rights of humanity would be more scrupulously respected. He left Richmond on the 24th ult. on his way to the Cherokee country. While at Washington, he endeavored to persuade, but in vain, the Cherokee chief, Ross, to accompany him, and unite with him in prevailing upon the Indians to remove peaceably. Including regulars and militia, he has under his command a force estimated at 7000 men.

While the President and the people are at sword's points in relation to the subject of currency, and the management of the revenue, while the question of resumption is daily acquiring a wide and important range, the steamship Sirius will, in 12 days, place the people of England in possession of all the facts necessary to form a correct judgment of our condition. Only think of it! Twelve days passage. The immense results to flow from such a proximity are beyond the ken of the most frightened. The settlement of all our questions of currency, &c. is to be powerfully influenced by the money power of England. But we must stop. Anticipation of results will fall far short of the reality. [N. Y. Whig.]

THE LATE DUEL. The report of the Committee on the late duel in a patty electioneering affair to aid Van Buren, and is sustained by his partisans with the hope of gaining the votes of those conscientiously opposed to duelling. He seizes any rope to save himself clutches any excitement grasps at any commotion to gain a vote.

If the Committee consenting to this report could themselves be excelled for a breach of privileges in daring to indict, try, convict and sentence a member of Congress, when their duty was simply to collect facts, it would, we think, go far to put an end to duelling; but no man of honor or principle can hold his seat in safety or tranquility, if that report is not thrown back upon the committee with proper censure. Even the aged Mr. Adams, a man decidedly and religiously opposed to duelling, cannot repress his indignation at the conduct of the committee.

The debate alone will give rise to duels, and in any event Mr. Van Buren ought to be held responsible for the consequences. Under the hope of making political capital out of the affair he has rushed on and advised this report.

[N. Y. Star.]

Another "democratic reaction." The Argus made a great noise about a month since at the election of loco foco select men in Minot, and called it a "democratic reaction." At the election on Monday last in the same town, the Whig candidate, Mr. Long, received 231 votes, while the "democratic" candidate Mr. Harris received but 144. The Argus, when it publishes this vote should be careful and not refer its readers to the "back numbers" of that paper. [Portland Advertiser.]

The Globe talks about bribery and fraudulent voting at the late Baltimore election. The Locos have had their best trial at that game, as the Registry Act will put an end to all such maneuvering in future.

It seems to be pretty generally admitted, by the political friends as well as the opponents of Mr. Van Buren, that he is rapidly losing his influence and popularity throughout the country. The result of the election, with the which can not be misinterpreted. The people from one end of the land to the other are rebuking him in a voice of thunder. [Boston Mer.]

The Toronto Patriot says, that the delivery up of Dawson, who was seized at Lewiston, has been formally demanded of the Governor of the State of New York. The Patriot expects no compliance. [Ibid.]

MONUMENTAL DEVIATION. It is stated that Capt. W. W. of Mississippi, deceased, has bequeathed his entire estate, valued at \$100,000 to the Colonization Society, and that by his will he emancipated the whole of his slaves 170 in number. [Ibid.]

A correspondent wishes to know why a Greek philosopher is represented in the lately published engraving, holding a lantern to Daniel Webster. We suppose it was because he could not hold a candle to him.

(From Dr. Jackson's second Report on the Geology of Maine.)

It is probable, that nearly all the soils which form the interior upon the banks of that river are of alluvial origin, or were brought down and deposited by that river while its course winding its way among various rocks, principally gray-wacke, lime stone slate, and trap, would enable the waters to take up and deposit various rich alluvions.

The character of the country in most cases determines the occupations of the inhabitants, so it will appear from the geological character of this river, that the settlers will engage first in the lumber trade, which will be followed by the more sure and profitable occupation of farming; while its foundries, with their machine shops will lay the foundation for a thriving manufacturing business, and will supply all the important implements in agriculture and the arts. The husbandries will be turned for time which is required for building and for agricultural use, and the Tubique gypsum will always afford the means of bringing out the virtues of the limestone soil, which is covered with a rich black vegetable mould, that will be rendered more nutritive to plants by skillful treatment. With such resources the public domain cannot fail to become a most valuable territory, and all that is now wanted to give an impetus to its settlement, is first, to finish the great roads to give ready access to the Aroostook and Madawaska, so that the settlers may have the means of transporting their produce to market; and secondly, to adjust the boundary question, so as to remove the objection now placed against the cutting of timber, an injunction which evidently favors the lumber dealers upon the St. John, while it prevents American citizens from engaging in a profitable occupation, and obstructs the free settlement of the country.

FIRST ATLANTIC STEAMBOAT. The New-London (Conn.) Gazette gives the following interesting particulars in relation to the first steam vessel, the Savannah, that ever crossed the Atlantic. They were communicated by Capt. Stephen Rogers, of Groton, who was sailing master of the steam ship which Moore Rogers, of Groton, commanded.

She was seen from the telegraph station, at Cape Clear, on the southern coast of Ireland, and reported as a ship on fire. The Admiral, who lay in the Cove of Cork, despatched one of the King's cutters to her relief. But great was their wonder at their inability with all sail, in a fast vessel, to come up with a vessel under bare poles. After several shots were fired from the cutter, the engine was stopped, and the surprise of her crew at the mistake they had made, as well as their curiosity to see the singular Yankee craft, can be easily imagined. They asked permission to go on board, and were much gratified by the inspection of this naval novelty. On approaching Liverpool, hundreds of people came off in boats to see her. She was compelled to lay to outside of the bar, till the tide should serve for her to go in. During this time she had her colors all flying, when a boat from a British sloop-of-war came along side and hailed. The sailing master was on deck at the time, and answered. The officer of the boat asked him, "Where is your master?" To which he gave the laconic reply, "I have no master, Sir."

"Where's your Captain, then?" "He's below do you wish to see him?" "I do, Sir." The captain, who was then below, on being called, asked him what he wanted to which he answered, "Why do you want that penant Sir?" "Because my country allows me to, Sir." "My commander thinks it was done to insult him, and if you do not take it down he will send a force that will do it." Captain Rogers then explained to the engineer, "Get the hull water engine ready." Although there was no such machine on board the vessel, it had the desired effect, and John Bull was glad to paddle off as fast as possible. On approaching the city, the shipping, piers, and roofs of houses were thronged with persons cheering the adventurous craft. Several naval officers, noblemen, and merchants from London, came down to visit her and were very curious to ascertain her speed, destination, &c. As it was soon after Jerome Bonaparte had offered a large reward to any one who would succeed in taking his brother Napoleon from St. Helena, it was suspected that this was the object of the Savannah. After remaining twenty-five days in Liverpool, during which time she was visited by thousands of people of all ranks, and her officers were treated with marked attention, she left for Copenhagen, at which place she arrived in safety where she excited similar curiosity. She proceeded thence to Stockholm in Sweden, where she was visited by the royal family, the foreign ministers, naval officers, nobility and others, who, by invitation of Mr. Hughes, the American minister, dined on board, and took an excursion among the neighboring islands, with which they were much delighted.

Lord Lyndoch of England, who was then on a tour through the north of Europe, by invitation of our minister, took passage off board the Savannah, for St. Petersburg, which place she reached in due time. Here she was visited by invitation of our minister at that place by several noblemen, military and naval officers, who also tested her superior qualities by a trip to Cronstadt. Her officers received valuable presents of plate, &c. &c., and we have now before us a superb snuff box, which was presented to her sailing master, Capt. Stephen Rogers, by Lord Lyndoch. She sailed from St. Petersburg to Copenhagen, and thence to Arendal, in Norway, whence she returned to Savannah, where, after a passage of about twenty-five days, she arrived in safety being the first steam vessel that ever crossed the Atlantic and after performing a voyage highly creditable to American ingenuity and enterprise.

She used Liverpool coal for fuel, of which she took seventy-five tons, as well as twenty-five cords of wood for kindling. She had no freight, and only used her engines when not able to go at the rate of four knots with her sails. By the great fire in Savannah her owners were compelled to sell her to run as a packet between that place and New York, whether she was bound, under charge of Captain Nathan Bushong, now master of the Liverpool packet ship United States, when she was lost on the South side of Long Island.

LATE CASES. The following cases of absence of mind occurred in Pawtucket N. J. during the past week. Any person from that quarter who will furnish us with all the particulars, will receive our cordial thanks.

A driver from Burrillville coming down with a fat pig to sell stopped at a tavern to take a horn of brandy; and after drinking his draught, tied his own hands and feet together, and gazed his own way, playing the pig in the driver's act. He did not perceive his mistake till he tried to disengage himself.

An officer intending to take a ride, fastened the spur on his right leg, and did not discover his mistake until he perceived him a glass of wine, when the animal signified by a jerk of the head that he belonged to the first at Athens party. [Boston Herald.]

A DOUBLE MISFORTUNE. Four persons were killed instantly in a fire at Cornhill, Georgia, the falling of a bank in a stable where they were at play. The property of the persons who lost by their death is estimated at \$1,500 or \$2,000. [N. Y. Express.]

There is other business at Lynn besides making shoes. It is estimated that there are annually caught by the fishermen of that place four millions, six hundred and eighty thousand pounds of halibut, cod, and haddock, fish.

Stephenson, the Van Buren candidate for Governor of Illinois, has been dropped by the party as a hot potato. He is a defaulter in sixty thousand dollars. A new convention is to be called to select a better man.

GORHAM ACADEMY
TEACHER'S SEMINARY
I will be reconnected that more than two years since, the Trustees of this Institution commenced, through their agent, to solicit contributions in its behalf, with the view as then made known, to furnish the community, at a moderate expense, facilities of a thorough systematic and well balanced education. To provide a Seminary for teachers of common schools, and, to cause a more general and deeper interest in favor of female education. Of the result of their efforts the public are also to some extent informed. The Board have now in their employment SEVEN TEACHERS, five gentlemen and three ladies, all of whom are experienced in their profession. They have provided, in the erection of a large and commodious brick edifice for a female Academy and Boarding House, accommodations for one hundred pupils at an expense of about \$35,000. Connected with the institution is now, a somewhat extensive Philosophical and Chemical apparatus, also a small library and a cabinet of minerals. For the year ending August 37, the whole number of students was two hundred and sixty five. For the current year the proportionate number is much larger. Provision is made for giving instruction, here after with special regard to Civil Engineering, Practical Mathematics, &c. Mr. Robert Dow, is appointed to superintend this department and will give to his entire attention. Mr. D. has devoted several years to these studies, and comes to us very highly recommended. The branches of study pursued in the High School department of this Institution, with the exception of Ancient Languages, are substantially what are taught in the colleges of our country. The study of Ancient Languages is pursued here only as required of a young gentleman, in preparation for admission to College. To this extent this branch of study receives particular attention. The students in the Ladies Seminary are furnished each with a bed and other articles necessary for occupancy, except bedding and trunks. The bedding and trunks young ladies furnish for themselves. Two ladies occupy the room near the case admits, on the plan of a regulated family. Young ladies and their male teachers live in the same building. A provision is made for the part of the school, to whom pupils have access at all times for advice and counsel. The expense of a young lady for a term including board, room, washing, fuel, light, tuition is \$25, and half of which is required in advance. Young gentlemen are furnished with their board and washing, in the institution at a charge of \$25 per week, and are accommodated in the village for a reasonable charge. During the fall is a finely separated from that of the ladies. And can be had in the best families for \$1.75 per week. The next year will commence on Wednesday, the 1st of June, and continue eleven weeks, ending on the 1st of September. For particulars, apply to the Trustees, or to the Secretary, **JACOB S. SMITH**, Secretary

FRANKFORD BANK.
THE public are hereby informed that we have ceased to redeem the bills of the Frankford Bank at the Suffolk Bank, and shall hereafter redeem them either in specie, or in current bills of other Banks, at our own counter. In dissolving this connection with the association of Banks, in Boston, a system of redemption in its effects highly injurious and inconvenient to the public, and fraught with danger and hazard in the transmission of funds from the counters of our own Bank, the only proper and safe place of redemption it is proper that the public should know the precise and correct amount of our bills now in circulation. That amount is but \$10,128, and the immediate funds of the Bank are amply sufficient to meet promptly all its circulation and individual depositors, and we have no hesitation in saying that the Stockholders in this Bank are equal, at least, in point of individual responsibility and permanent safety, to those of any other Banking institution in the State. Bills of all the Banks in Maine that have discontinued the Suffolk arrangement, and promptly redeem their bills at their own counters when presented either in specie or current bills of other Banks, will be received, at par at this Bank, either on deposit or in payment for dues to this Bank.

LAFAYETTE BANK.
Bangor April 23, 1838
THE public are hereby informed that this Bank has bills in circulation to the amount of \$30,148 and no more, and our whole available means bear a greater proportion to our whole liabilities than at any time heretofore. We therefore hope no holders of our bills will part with them at a discount. The late course of the Suffolk Bank in ceasing to redeem our bills is approved by us. The Suffolk system so far as this State is concerned, we think is injurious to the banks and the public, and should be abandoned.

STATE OF MAINE.
TO WHOM IT MAY CONCERN.
WHEREAS, James L. Whitmore, of Bangor, in the county of Penobscot and State of Maine, bricklayer, on the thirtieth day of July, A. D. 1835, mortgaged to me a certain tract or parcel of land, situate in said Bangor bounded and described as follows, viz. three certain house lots commencing on Ohio street at the corner of land of James Smith, and the corner of land bought of James Smith by James True and John C. Bradbury, and running on said street one hundred and one feet, thence easterly seventy-five feet on a line parallel with the line between said Smith & True, Bradbury, Ayer & True, thence northerly fifty and a half feet on a parallel line with Ohio street, thence easterly seventy-five feet parallel with the line between said Smith & True, Bradbury, Ayer & True, thence northerly fifty and a half feet to land owned by the said James Smith, thence westerly on said Smith's line one hundred and fifty feet to the first mentioned bounds. The condition of the mortgage was that said Whitmore, his heirs, executors, or administrators should pay me, my heirs, executors, administrators or assigns the sum of six hundred sixty six dollars and sixty seven cents and interest, which sum, deducting four dollars and forty-four cents, paid March 14, 1836, is my claim by said mortgage on said real estate, and the condition in said mortgage has been broken, by reason whereof I claim to foreclose said mortgage.
Witness my hand at Bangor, this first day of May, A. D. 1838
